

## LG VRF systems to Home Automation Interface

The LG-ASCII gateway allows a complete and natural integration of LG VRF Air Conditioner units into IP based Home Automation Systems.

### FEATURES

- Intuitive web interface for the WiFi configuration.
- b/g/n WiFi standards supported.
- Quick and easy installation (plug and configure the WiFi).
- External power not required.
- Simultaneous control of the AC unit by the IR remote controller and by Home Automation systems.
- Integration with any IP Home Automation System thanks to our open ASCII protocol.
- Compatible with the drivers available in Intesis webpage.

**Use Case**  
Integration of LG Commercial line and VRF Air Conditioners Units into a Home Automation installation.

### Description

#### DIRECT CONNECTION TO INDOOR UNITS

The gateway is wired directly to an indoor unit. This allows not only the control of the main AC functions such as operating mode, fan speed, temperature setpoint...but the monitoring of errors and alarms.

#### THE SOLUTION

The Intesis Home Automation gateways have been specifically designed to be the best AC integration solution for Home Automation Systems. Communications are based on a simple ASCII protocol that can be easily implemented, in the form of a driver, into Home Controllers or Smart Hubs. With drivers already available from many Home Automation platforms on the market, Air Conditioning units can be easily integrated and controlled.

**ORDER CODE:**

INWMPLE001R000 LG VRF systems to Home Automation Interface – 1 unit

#### **INCLUDED COMPONENTS:**

## Intesis Gateway. Installation Manual.

Warranty: 36 months.
