

## M-BUS to KNX TP Gateway

Integrate any M-Bus device with any KNX device or system. The aim of this integration is to make accessible M-Bus devices, its registers and resources from a KNX system, as if it was a part of the own KNX system and vice-versa.

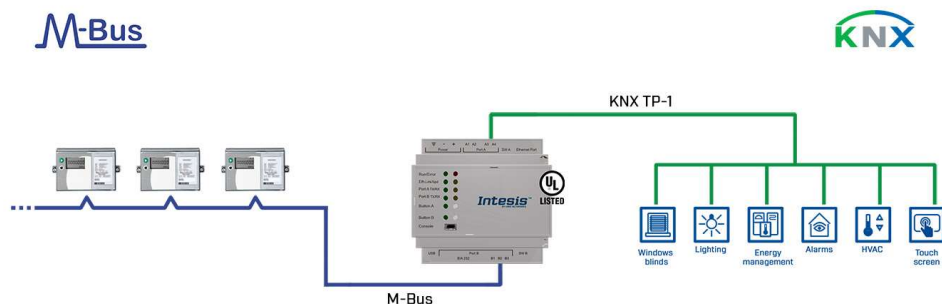

### FEATURES

- UL Certified
- Support for KNX TP
- Up to 3000 KNX communication objects
- KNX standard Datapoint Types (DPT) available
- M-BUS line scan (meter detection) and register discovery
- Embedded M-Bus level converter
- Easy integration & updates with Intesis MAPS

### Use Case

Integration of M-Bus meters into a KNX installation.

### Description

This bidirectional gateway provides a straightforward and fast integration thanks to its unique onboard features. Thanks to its support for the KNX standard datapoint types (DPTs), guarantees a seamless integration with any KNX device or system. The configuration is carried out using the Intesis MAPS software. This one allows you to define your own settings for the device. Also, it will be able to download all the available project templates or to import any created/exported project template on your computer.

| INKNXMEB0100000 | M-BUS to KNX TP Gateway - 10 devices  |
| INKNXMEB0200000 | M-BUS to KNX TP Gateway - 20 devices  |
| INKNXMEB0600000 | M-BUS to KNX TP Gateway - 60 devices  |
| INKNXMEB1200000 | M-BUS to KNX TP Gateway - 120 devices |

#### INCLUDED COMPONENTS:

Intesis Gateway.  
 Installation Manual.  
 USB Configuration cable.  
 (Power supply not included).

Warranty: 36 months.
