

Mitsubishi Heavy Industries VRF systems to Modbus TCP/RTU Interface

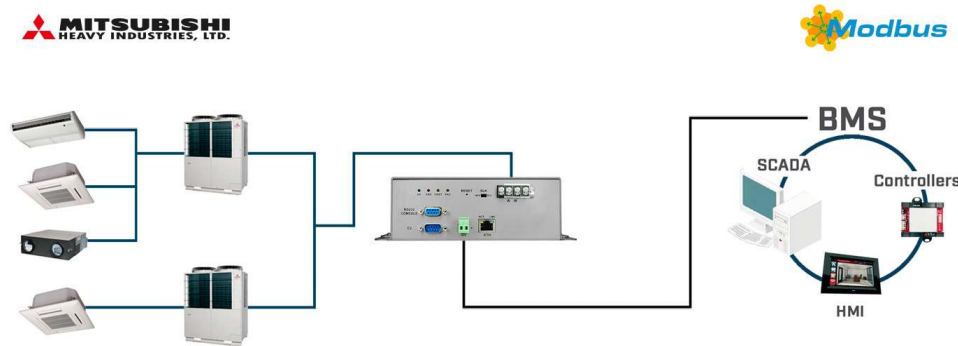

The Mitsubishi Heavy Industries interface has been specially designed to allow bidirectional control and monitoring of Mitsubishi Heavy Industries VRF systems from a BMS, SCADA, PLC or any other device working as a Modbus master.

FEATURES

- Direct access to outdoor unit's communication bus.
- The interface is a Modbus slave able to manage Modbus TCP and Modbus RTU simultaneously.
- Capable of managing up to two simultaneous Modbus master connections
- Configuration through IP or RS-232 port.
- LED indicators to provide easy to check communication status and errors.

Use Case
Integration of Mitsubishi Heavy Industries Air Conditioner Units through Superlink connection into a Modbus installation.

Description
DIRECT CONNECTION TO VRF OUTDOOR UNITS
The gateway is directly connected to the outdoor units communication bus and enables the control of all the indoor units connected to the system.
SET UP BY LINKBOX
The configuration is carried out using Linkbox software. This one allows you to define your own settings for the device and offers extra functions such as a diagnostic feature.

ORDER CODES:	
INMBSMHI048O000	Mitsubishi Heavy Industries VRF systems to Modbus TCP/RTU Interface - 48 units
INMBSMHI128O000	Mitsubishi Heavy Industries VRF systems to Modbus TCP/RTU Interface - 128 units

INCLUDED COMPONENTS:
Intesis Gateway.
Installation Manual.
RS-232 Configuration Cable.
Power Supply Cable.
Warranty: 36 months.
